

Information

pursuant to the regulations on waste electrical and electronic equipment

The design, materials used and care applied in manufacturing as well as excellent servicing make all *RIEGL* products suited for long life. When *RIEGL* products finally reach the end of their life-cycle we take back waste electrical equipment free of charge to our production facilities in Horn for the appropriate treatment, partial recycling and proper safe disposal, in compliance with the WEEE¹⁾.

¹⁾ WEEE: Directive 2012/19/EU on waste electrical and electronic equipment, Official Journal No. L 197 of 2012-07-24 p.38
